Flag Floor Class Itinerary

November 21 to 23 2026

A three-day class covering a stained flag design, the surrounding gray floor, and the final protective topcoat.

Saturday November 21

White base and flag staining

- Apply FW38 with white pigment to the flag area to cover the existing slate color and create a fresh white canvas.
- Once the base is ready, lay out and tape off the flag design.
- Stain the flag using Color Floor in red, white, and blue.

Sunday November 22

Gray stain and color lock coat

- Apply gray stain to the floor surrounding the flag.
- Once the stain is ready to be coated, apply FW38 over the stained areas to prime the surface and lock in the color.

Monday November 23

Final protective topcoat

- Apply HI Wear 90 over the entire floor, including the flag and surrounding gray area, as the final topcoat.

Timing note: Application timing will follow the manufacturers' required drying and recoat windows.
